PRINCIPAL'S MESSAGE

India has witnessed tremendous success in the field of space Agriculture, Nuclear Energy, Science and technology. Yet there are several issues that our country needs to put an end to-corruption, abuse of women, unemployment, poverty, illiteracy, high crime rates, malnutrition and terrorism. The day when everyone has access to their rights, everyone is treated equal, women aren't exploited, poverty is eradicated and employment opportunities available to one and all; it is on that day India will be truly independent.

India is a secular and democratic republic assuring its citizens of justice, equality and liberty and endeavours to promote fraternity among them. But due to some anti-social elements the nation faces religious violence that ruins the peace and harmony of the nation. We the citizens of this nation should pledge to never indulge in violence and work hard to achieve true freedom, communal harmony and strive to become an example for other nations.

The emancipation of the poor is another solution to make our motherland a developed Nation. As citizens of India we need to make our country free from poverty too. If everyone works towards this by helping the poor around them India will be a developed nation in years to come.

We at St Aloysius Pre University College do our bit to promote brotherhood and eradicate hunger, poverty and keep our surroundings green. The associations like NSS, AICUF, CLC and the team of CAUSE has been continuously working towards these goals. We believe in the notion of an egalitarian society and instill in students the values of brotherhood by celebrating the national festivals and religious festivals. We not only exhibit the patriotic fervour on Independence Day and Republic day but we also do our best to help the brothers and sisters of India through outreach programmes thus making our city a better place.
